

NOTARIAL STATISTICAL DATA

The statistics collected by the Italian Notariat are linked to the ISTAT (Italian Statistical Institute) Codes which are disclosed in the notarial Index, and to all the information related to the tax reference number, to the transcription and the addition to the real estate register, to the cadastral transfer and to the payment of duties owed under the system of self-liquidation of the notary required by the Italian law.

Notartel has created a specific app through the Notarial Statistical Data Acquisition System (DSN) that allows to monthly extract an .xml file which contains information related to notarial activities carried out during the reference month.

The periodical (every six months) Notarial Statistical data collection is made available to notaries, communicators, sector operators and political decision-makers.

The report provides an unusual and original view of notarial transactions, of their type, their value, as well as of the characteristics of the subjects who put them in place, obtained through the practical expression of operations performed in the notarial firms throughout the national territory.

Founded in 1997, Notartel is a company owned by the National Council of Notaries and the Cassa Nazionale. We implement and manage computerised and online services for Italian notaries. We connect all Italian notarial offices through the Unified Notarial Network (R.U.N.), a private web platform created by the Notariat at its own expense that provides services for communications with the public service and thus indirectly with the public. Our task is to implement the policies set out by the IT Sector of the National Council. Our operational aim is to integrate the internal services within the notary's office, created in-house or by third parties, with those of the Public Administration and private parties using a single Notarial computer system. Since 2002 we have managed the issuing of digital signatures and smart cards as well as certified electronic mail for Italian notaries on behalf of the National Council of Notaries. We have been certified ISO 27001: 2013, ISO 9001: 2000 and Regulation EU No 910/2014 (eIDAS). We are registered in the list of accredited AgID Conservators and in the Register of online sale Managers by Ministry of Justice.
