ITALIAN NOTARIES' DIGITAL SIGNATURE

Notartel issues digital signature certificates valid for three years, for the secure exchange of documents.

Based on current legislation and the operations manual of the certification authority, Notartel, on behalf of the National Council of Notaries, certifies the digital signatures of practising notaries and thus guarantees to third parties not only that the digital signature belongs to a particular person and is currently valid, as does any certifier, but also that the holder of the signature is a practising notary public.

Since 2002 the National Council of Notaries has been registered in the public list of digital signature certifiers maintained by the Agency for a Digital Italy (AgID).

The digital signatures of Italian notaries can be verified using the on-line Verifier, a web application that allows for the verification of time stamps and digitally signed files. The application is able to recognise any signature or time stamp issued by an accredited certifier.

Società informatica
del notariato italiano

Founded in 1997, Notartel is a company owned by the National Council of Notaries and the Cassa Nazionale. We implement and manage computerised and online services for Italian notaries. We connect all Italian notarial offices through the Unified Notarial Network (R.U.N.), a private web platform created by the Notariat at its own expense that provides services for communications with the public service and thus indirectly with the public. Our task is to implement the policies set out by the IT Sector of the National Council. Our operational aim is to integrate the internal services within the notary's office, created in-house or by third parties, with those of the Public Administration and private parties using a single Notarial computer system. Since 2002 we have managed the issuing of digital signatures and smart cards as well as certified electronic mail for Italian notaries on behalf of the National Council of Notaries. We have been certified ISO 27001: 2013, ISO 9001: 2000 and Regulation EU No 910/2014 (eIDAS). We are registered in the list of accredited AgID Conservators and in the Register of online sale Managers by Ministry of Justice.
