del notariato italiano

notartel

## CERTIFIED EMAIL

Notartel has created a domain dedicated to a certified e-mail service that provides the sender with legally valid electronic receipts certifying the sending and delivery of computerised documents. The National Council of Notaries has been registered since 2005 in the list of providers of Certified Electronic Mail as accredited by the Italian Agency for Digital Advancement.

In February 2015 the new pec.notariato.it Certified Electronic Mail domain was created in order to provide a second certified email address for communicating with the competent Judicial Offices. The new PEC mailbox has been added to the General Register of Electronic Addresses (ReGIndE) managed by the Ministry of Justice for all communications relating to Online Civil Trials (PCT).

**see on the web:** <http://pec.notariato.it/>

Founded in 1997, Notartel is a company owned by the National Council of Notaries and the Cassa Nazionale. We implement and manage computerised and online services for Italian notaries. We connect all Italian notarial offices through the Unified Notarial Network (R.U.N.), a private web platform created by the Notariat at its own expense that provides services for communications with the public service and thus indirectly with the public. Our task is to implement the policies set out by the IT Sector of the National Council. Our operational aim is to integrate the internal services within the notary's office, created in-house or by third parties, with those of the Public Administration and private parties using a single Notarial computer system. Since 2002 we have managed the issuing of digital signatures and smart cards as well as certified electronic mail for Italian notaries on behalf of the National Council of Notaries. We have been certified ISO 27001: 2013, ISO 9001: 2000 and Regulation EU No 910/2014 (eIDAS). We are registered in the list of accredited AgID Conservators and in the Register of online sale Managers by Ministry of Justice.
