THE UNIFIED NOTARIAL NETWORK - R.U.N.

The intranet of the National Council of Notaries was created in 1998 and has become known as the Unified Notarial Network (Rete Unitaria del Notariato).

The IT infrastructure, technological support (access to the Network and related services like e-mail and the creation of web pages) and editorial support for the publication and updating of content are provided by Notartel, where appropriate through distributed structures of the National Council of Notaries.

The R.U.N. is the primary internal communications tool for the notariat. Even where it does not replace the traditional means of internal communications (notices, letters, circulars, reports, minutes, summaries) it supports these in a fundamental way and is now an indispensable tool in improving effectiveness.

Founded in 1997, Notartel is a company owned by the National Council of Notaries and the Cassa Nazionale. We implement and manage computerised and online services for Italian notaries. We connect all Italian notarial offices through the Unified Notarial Network (R.U.N.), a private web platform created by the Notariat at its own expense that provides services for communications with the public service and thus indirectly with the public. Our task is to implement the policies set out by the IT Sector of the National Council. Our operational aim is to integrate the internal services within the notary's office, created in-house or by third parties, with those of the Public Administration and private parties using a single Notarial computer system. Since 2002 we have managed the issuing of digital signatures and smart cards as well as certified electronic mail for Italian notaries on behalf of the National Council of Notaries. We have been certified ISO 27001: 2013, ISO 9001: 2000 and Regulation EU No 910/2014 (eIDAS). We are registered in the list of accredited AgID Conservators and in the Register of online sale Managers by Ministry of Justice.
